

## Technical product information

# Pipe Lubricant FDA

## Universal pipe lubricant

**Pipe lubricant FDA**, is a lubricating and assembling product based on esters. **FDA** is a high-end quality product generally used for all kind of pipe assembly.

**Pipe lubricant FDA** has been developed exclusively with natural based raw materials and offers a wide range of applications up to most difficult requirements i.e. for under water applications or assembly down to  $-18^{\circ}\text{C}$ . **Pipe lubricant FDA** is not water soluble.

Due to excellent adhesive, lubricating and gliding properties **pipe lubricant FDA** supports the assembly of the pipes and avoid, if used correctly, the deforming of the gasket within the sealing area and thereby protects against leaks.

**Pipe lubricant FDA** is available in different cans and buckets up to 10 kg. Special packagings like drums are available on customers demand.

### *Technical data*

Consistency:	paste
Colour:	beige
